Round 2+ QI Settlement

by Ace Preston

(Nerfed Pillory Addition)

Brought to you via the Gumball Rally

Basic Assumptions

Player has 1,700 Shards to start. Why this amount you may ask, we'll simply put it was the figure I ended up with after round 1. This is more a outline of what I plan to do but may be useful guide for everyone.

Player can boost both QI Gold and QI Supplies at start by 270k and 30% boosts for both from main settlement

Player has boosts to add at least 50 goods at start to allow a goods expansion to be placed straight away.

Player can fight through few first difficulties without needing to train troops.

Those with higher boosts will get by with EMA troops and can quickly pump out some extra if needed during a rebuild. Others may need build some HMA troops. Wait to after collection 5 when settlement can support it easier.

Following Plan

If you are fortunate enough to get expansions free of impediments as set out in plan, count your blessings. The Reality for most, there will be deviations from the plan layout. Key is just follow the process.

Collect Town Hall first, it is not impacted by boosts

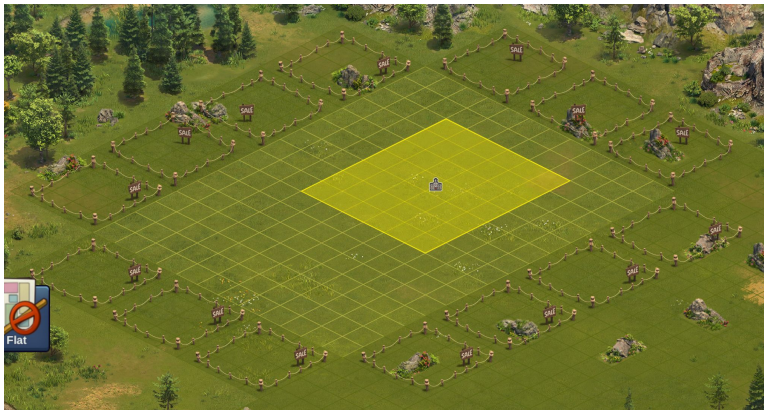

After Collection 4, start producing your goods ready for the next expansion before reaching collection. You can spend all your supplies as there are no further early builds needing supplies. All future building happening after full collection.

At collection, sell housing (multi-storey first and then estates) and build churches as you can, and advance in euphoria stages until you get euphoria boost to 1.5. Then collect the remaining housing. Then look to add breweries to help boost supply collection.

At rebuild, do your best to follow plan by adding any new Tier3 buildings and then fill in rest.

Expansions together are better and offer greater utility. Any isolated or single expansions fill with buildings that will not be sold. If you have many of these isolated expansions you may need more stock of coins/supplies and alloy to fill with pillory at end.

If you run out of shards after collection 2, don’t fret. Just build without speeding. Be a few tweaks required to adjust, with biggest if you cannot speed the Doctor builds. It might push conversion to full QA back a little (1-2 collections).

The pic shows a starting grid. It is a 4x3 expansion lot size.

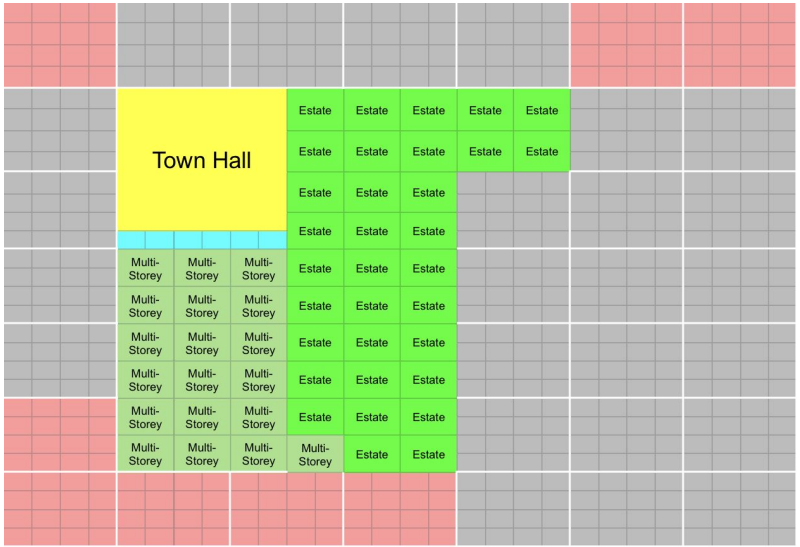

Look to make it a 5x3 with first expansions. Extend whichever way has fewest impediments. In the pic you would extend bottom side as the 3 expansions are free of impediments.

Guide will show everything connected as it is easier to do. The reality is your settlement will be more broken unless you spend extra shards.

First 3 expansions are somewhat fixed on where to take them as they are needed to create a 5x3 space. After that, focus on getting expansions free of impediments to keep shard cost low for the Round. .

The expansions are all perfect size for 4 of the 2x2 tile housing units in expansions wherever they are and this leaves main space for bigger buildings and the sell/build flows that will occur.

Starting Settlement Build

TIP: If you are short of gold target at the start, before building settlement, do some donating or fighting and you might win extra gold.

Last slide has an alternate layout for those with no gold boosts but shards to use and designed to still get you to 1k alloy at after collection 2.

The aim is to maximise Alloy collection and housing being smallest footprint is the goto buildings for this purpose. What is required for each collection not for the casual QI player, this is for those nutters who want to put in maximum effort.

The layout is shown. Buying 3 shard expansions and 1 goods expansion. This does require at least an extra 270k gold and at least 50 goods from boosts.

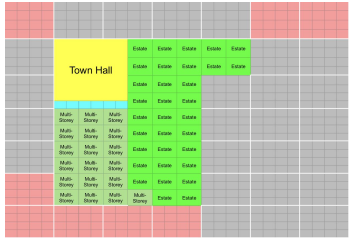

Now you may think you have just wasted all your gold. Euphoria bonus only 0.2 so going to get bugger all alloy and gold. Well math to the rescue. The gold boost is actually huge. While euphoria bonus is 0.2 for first collections, the Estate Bonus is 6.6. So gold bonus is actually 6.8 plus whatever bonus from your settlement.

That first multi-storey will sell & collect will add 90k gold to your coffers - the lowest you will get. You have quite a few Multi-Storey housing, so your gold worries will quickly be extinguished. As early buildings all just require gold to build, you will be building and selling like a mad QI fanatic.

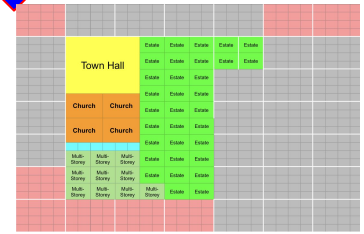

Alloy not quite as lucky. So the Collection process followed is more involved than just swiping finger madly over the settlement and will detail it on the next slide.

1st Collection and Rebuild

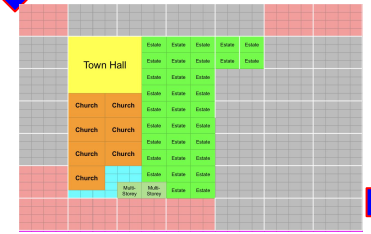

(**GMT** Timing QI Fanatic Thursday 1815 QI Normal Diff 1-1)

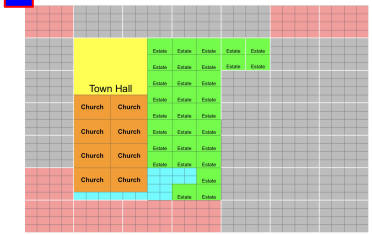

Sell 9 Multi-Storey and build 4 Churches - bonus moves to 0.6

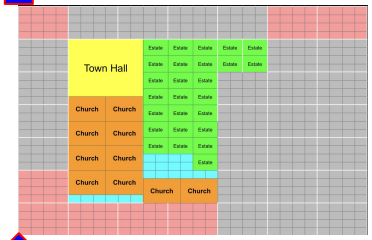

Sell 8 Multi-Storey and build 3 Churches - bonus moves to 0.8

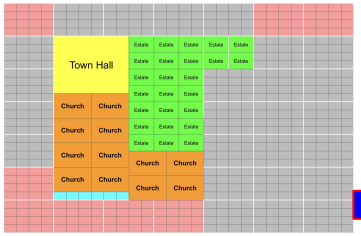

Sell 2 Multi-Storey and 2 Estates, and build 1 Church - bonus moves to 1

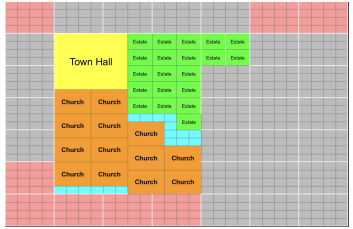

Sell 5 Estates and build 2 Churches - bonus moves to 1.1

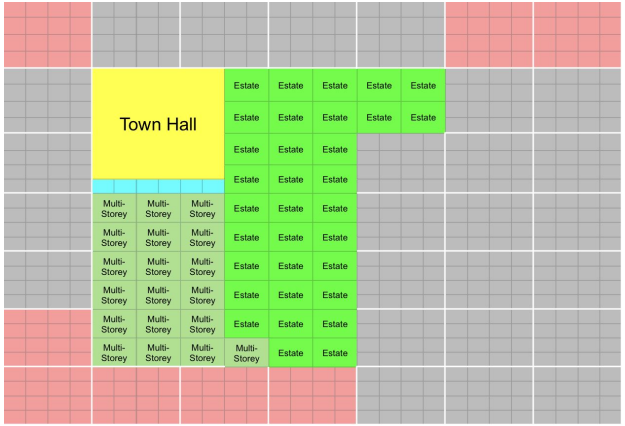

Sell 1 Estate and build 2 Churches - bonus moves to 1.2

Sell 5 Estates and build 1 Church - bonus moves to 1.5

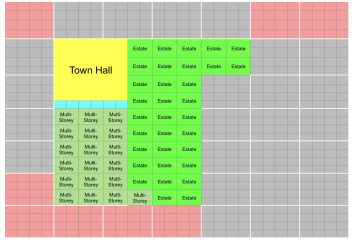

Collect all remaining. Now return settlement to starting layout.

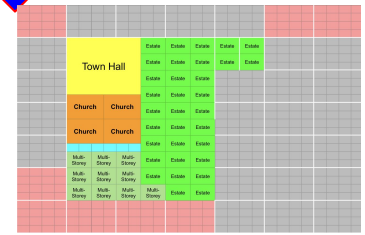

Assuming you started with boosts outlined, you should end up with balances of 2.1 million Gold, 395k Supplies and 534 Alloy.

2nd Collection

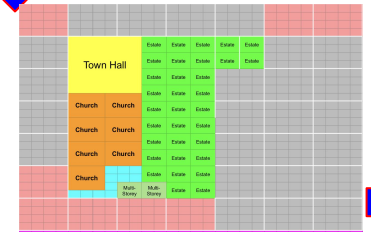

(**GMT** Timing QI Fanatic Friday 0430 QI Normal Diff 1-1)

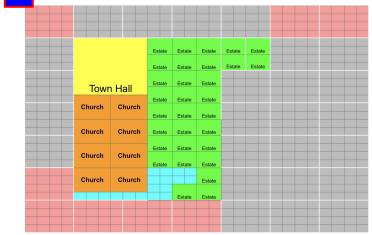

Sell 9 Multi-Storey and build 4 Churches - bonus moves to 0.6

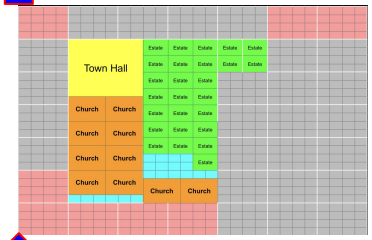

Sell 8 Multi-Storey and build 3 Churches - bonus moves to 0.8

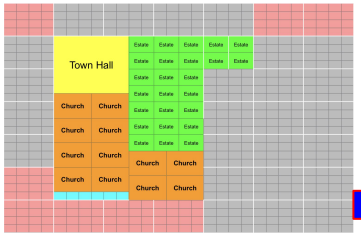

Sell 2 Multi-Storey and 2 Estates, and build 1 Church - bonus moves to 1

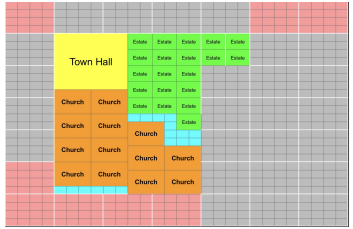

Sell 5 Estates and build 2 Churches - bonus moves to 1.1

Sell 1 Estate and build 2 Churches - bonus moves to 1.2

Sell 5 Estates and build 1 Church - bonus moves to 1.5

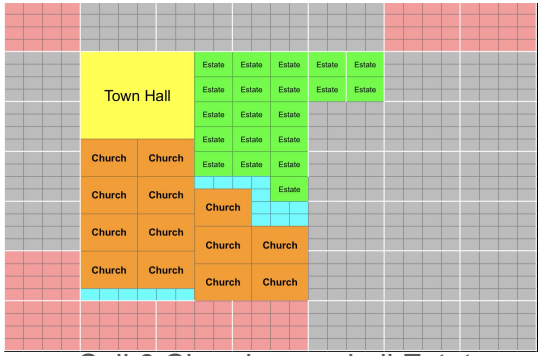

Collect all remaining.

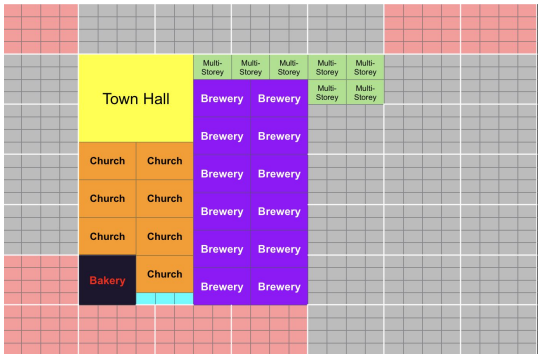

Rebuild on next slide

2nd Rebuild

(GMT Timing QI Fanatic Friday 0430 QI Normal Diff 1-1)

Sell 6 Churches and all Estates. Build 7 Multi-Storey, Build 1 Bakery (speed build) and 12 Breweries.

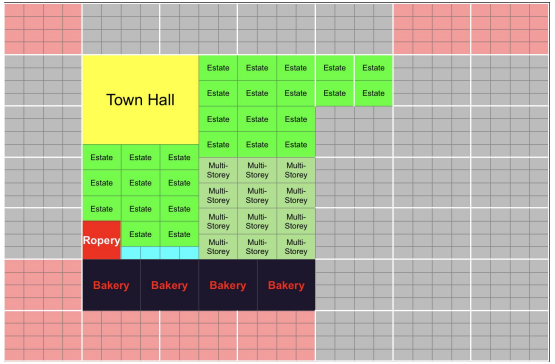

Speed production in Bakery 9 times.

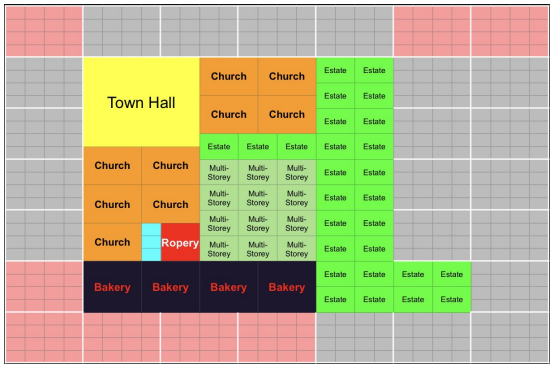

Sell all churches and breweries.

Build 3 bakeries (speed build all), 1 Ropery, 5 Multi-Storey and 27 Estates

Will wait the 1 hour for Ropery to finish to save a few shards.

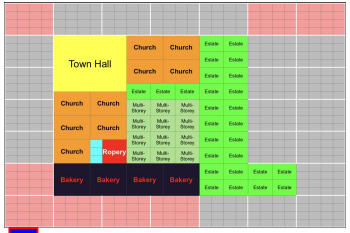

After waiting the hour for Ropery, sometime Before next collection, Buy 5 Goods expansions. Move around estates and Ropery and build 9 Churches.

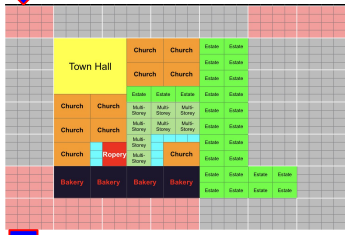

If you want to rush Ropery go ahead. You could then place housing instead of churches

3rd Collection and Rebuild

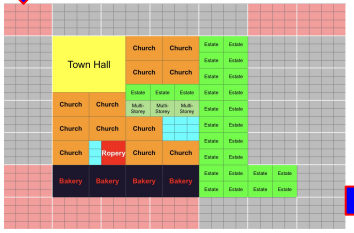

(**GMT** Timing QI Fanatic Friday 1445 QI Normal Diff 2-1)

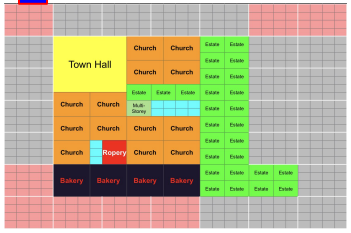

Sell 4 Multi-Storey and build 1 Church - bonus moves to 1.0

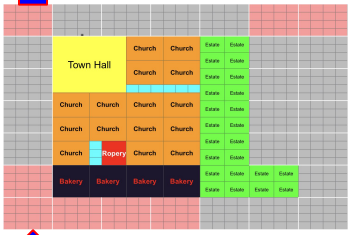

Sell 5 Multi-Storey and build 2 Churches - bonus moves to 1.1

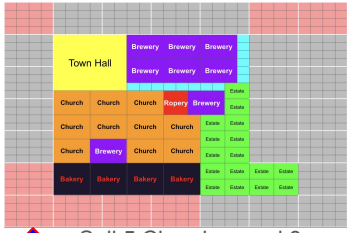

Sell 2 Multi-Storey and build 1 Church - bonus moves to 1.2

Sell 1 Multi-Storey and 3 Estates, then build 2 Churches - bonus moves to 1.5. Collect housing.

Sell 5 Churches and 8 Estates, then build 8 Breweries.
Collect remaining.

Sell all churches and Breweries.

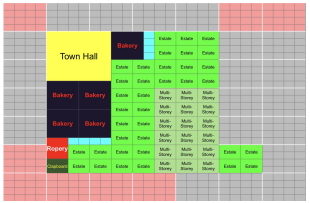

Moving buildings around so layout is easier for next collection process next time.

Build 15 Multi-Storey, Build 1 Bakery (speed build) and 1 Clapboard (speed build). Fill rest of space with Estates.

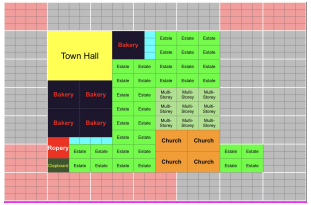

4th Collection and Rebuild

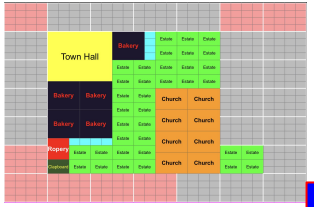

(**GMT** Timing QI Fanatic Saturday 0100 QI Normal Diff 2-2)

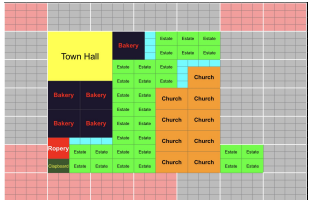

Sell 9 Multi-Storey and build 4 Churches - bonus moves to 0.6

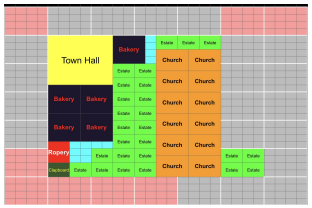

Sell 9 Multi-Storey and build 4 Churches - bonus moves to 0.8

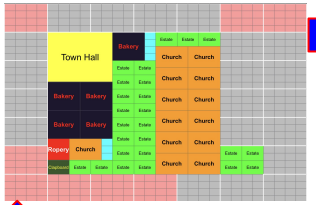

Sell 4 Estates and build 1 Church - bonus moves to 1.0

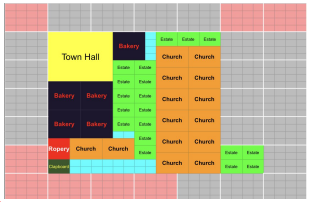

Sell 6 Estates and build 3 Churches - bonus moves to 1.1

Sell 1 Estate and build 1 Church - bonus moves to 1.2

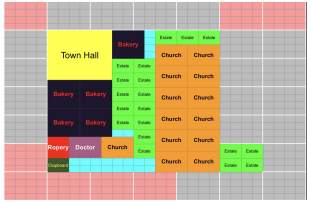

Sell 6 Estates and build 1 Church - bonus moves to 1.5.

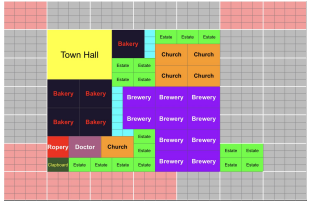

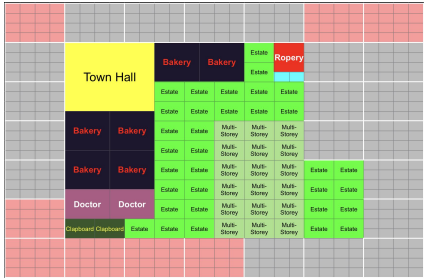

Do not collect the bakeries but Collect remaining housing.

Now before collecting the supply buildings sell 1 church and build 1 Doctor (speed build).

Then sell 8 churches, move 4 estates and sell 2 Estates. Build 10 Brewery and then collect Bakeries.

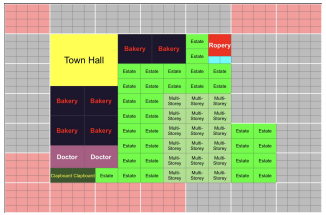

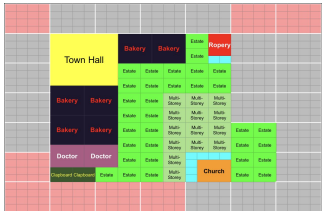

Rebuild time. Sell all Churches and Breweries. Build 1 Goods Expansion, 1 Bakery (speed build), 1 Clapboard (speed build), 18 Multi-Storey and fill rest of space with Estates.

5th Collection and Rebuild

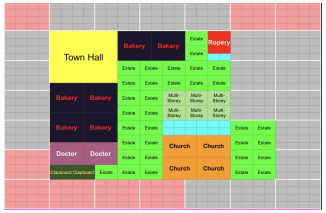

(**GMT** Timing QI Fanatic Saturday 1115. QI Normal Diff 3-1)

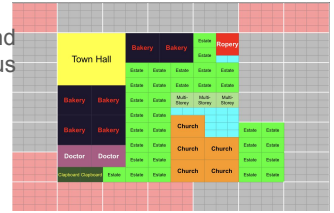

Sell 4 Multi-Storey and build 1 Church - bonus moves to 1.0

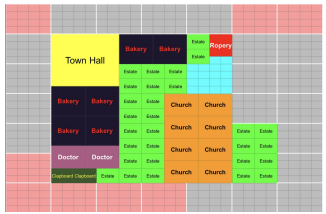

Sell 8 Multi-Storey and build 3 Churches - bonus moves to 1.1

Sell 3 Multi-Storey and build 1 Church - bonus moves to 1.2

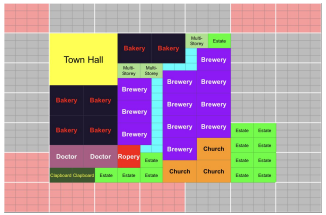

Sell 3 Multi-Storey and 4 Estates, then build 1 Church - bonus moves to 1.5

Do not collect the supply buildings yet but Collect remaining housing.

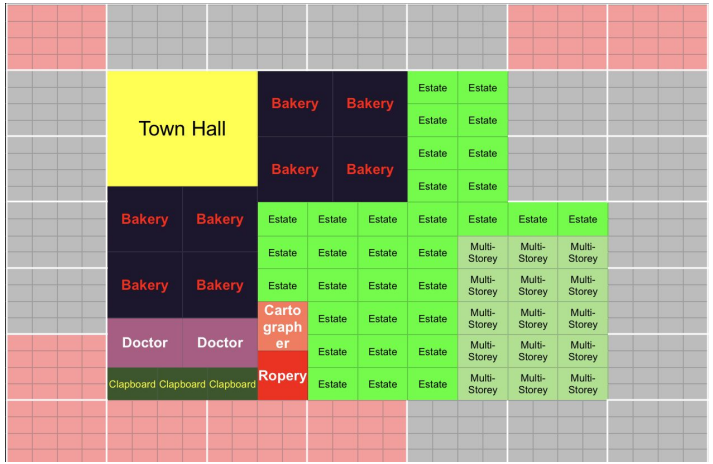

Now before collecting the supply buildings it is time for brewery builds. Start is to sell 5 churches to leave 3. Build 3 Multi-Storey and sell 16 Estates. Need shuffle things around to create space to place 11 Breweries. Then collect Bakeries.

Rebuild time.

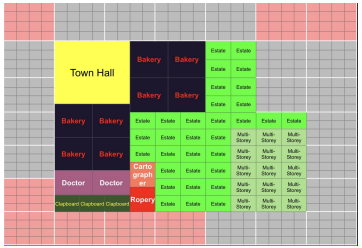

Sell all Churches and Breweries.

Build 1 Goods Expansion, build 12 Multi-Storey, build 2 Bakeries (speed build), 1 Clapboard (speed build), 1 Cartographer and fill the remaining space with Estates.

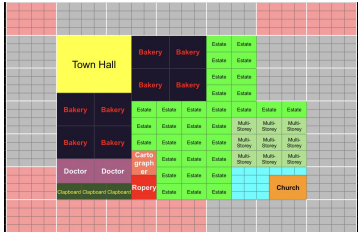

6th Collection and Rebuild

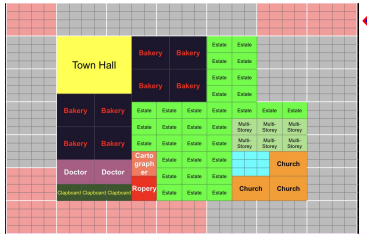

(**GMT** Timing QI Fanatic Saturday 2130 QI Normal Diff 3-2)

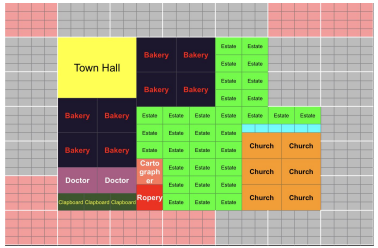

Sell 6 Multi-Storey and build 1 Church - bonus moves to 1.1

Sell 3 Multi-Storey and build 2 Churches - bonus moves to 1.2

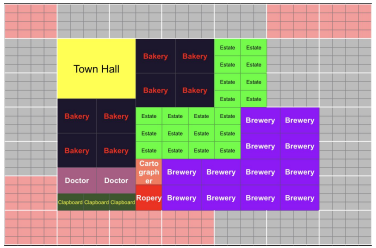

Sell 6 Multi-Storey and build 3 Churches - bonus moves to 1.5

Do not collect the supply buildings yet but Collect remaining housing.

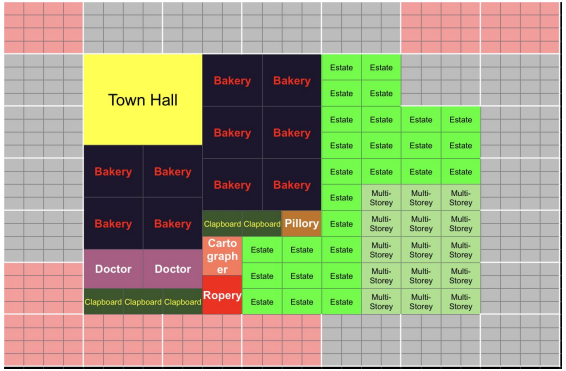

Now before collecting the supply buildings it is time to build breweries. Sell all churches and 12 Estates. Build 12 Breweries. Then collect Bakeries.

No more speeding builds and this is the last of the coin/supply LMA builds

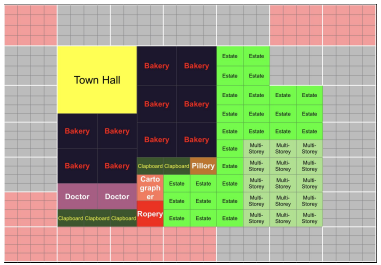

Rebuild time. Sell all breweries. Build a goods expansion, Build 15 Multi-Storey, 7 Estates and move some estates to right side. Build 2 Bakery, build 2 Clapboard and 1 Pillory.

.

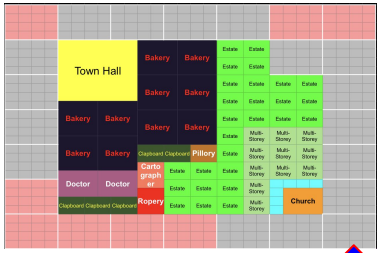

7th Collection and Rebuild

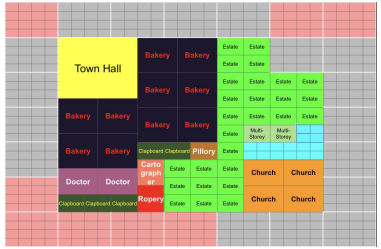

(**GMT** Timing QI Fanatic Sunday 0745 QI Normal Diff 4-1)

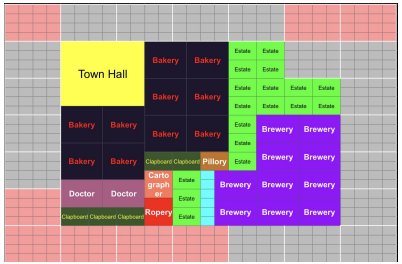

Sell 4 Multi-Storey and build 1 Church - bonus moves to 1.2

Sell 9 Multi-Storey and build 3 Churches - bonus moves to 1.5

Do not collect the supply buildings yet but Collect remaining housing

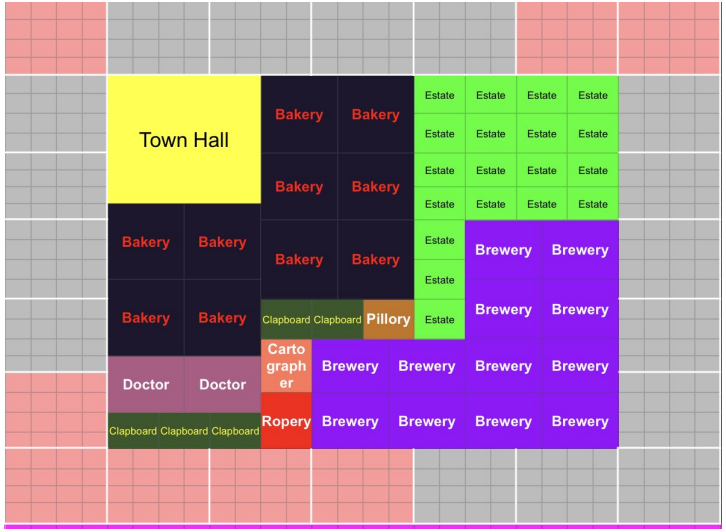

Now before collecting the supply buildings sell the Churches, 2 Multi-Storey and 9 Estates. Build 10 Breweries..

Build a goods expansion.

Move 3 Estates into new space and build 1 more Estate.

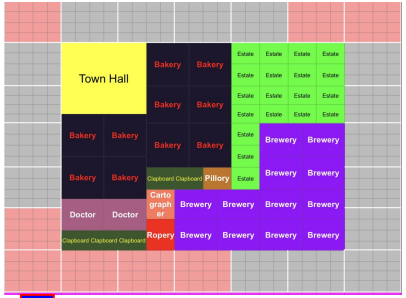

Build 2 more Brewery

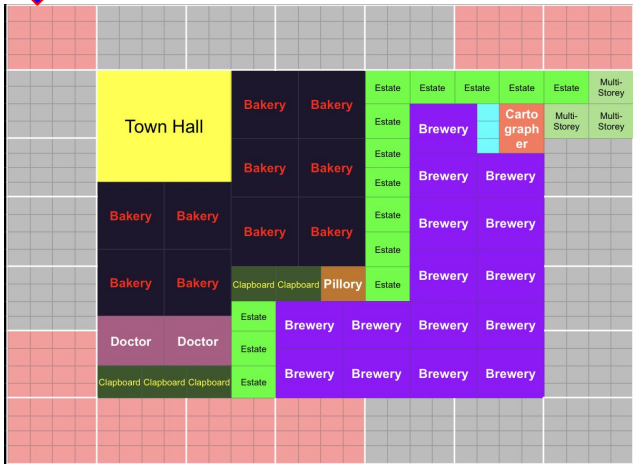

Collect Bakeries.

8th Collection and Rebuild

(**GMT** Timing QI Fanatic Sunday 1800 QI Normal Diff 4-2)

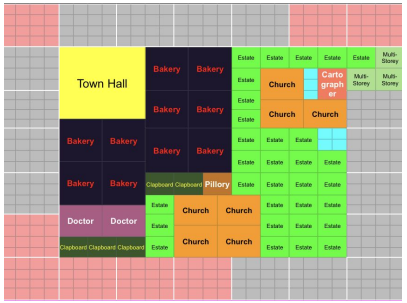

Easy Path

Collect all.
Build last goods expansion.
Sell Ropery
Build 3 Multi-Storey in new space.
Sell 5 Estates, Move some Estates and Cartographer to make space to build 3 more Brewery.

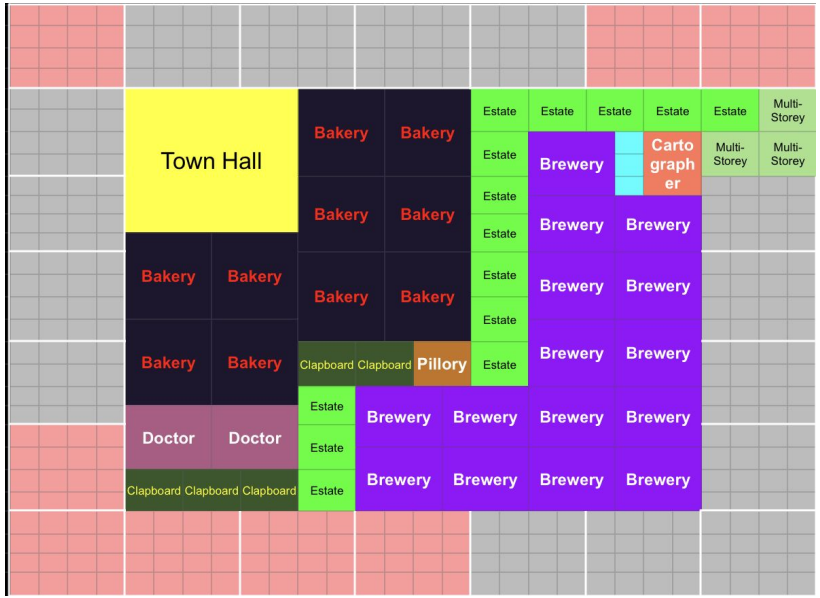

Maximalist path
(only if your guild gets to infinite nodes and you want more gold for donations)

Collect all supplies.
Build last goods expansion
Sell Ropery
Build 3 Multi-Storey in new expansion space.
Move some Estates and Cartographer to make space
Sell all Brewery
Build 7 Churches
Build 17 Estates (leaves 2x2 blank to keep euphoria bonus at 1.5)
Collect all housing
Sell Churches and 17 Estates
Build 15 Breweries

9th Collection and Rebuild

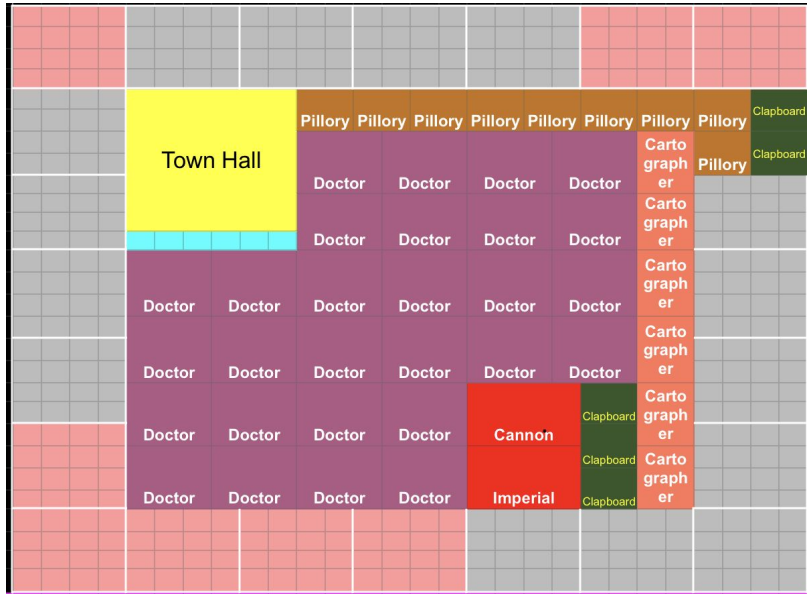

(**GMT** Timing QI Fanatic Monday 0415 QI Normal Diff 5-1)

10th Collection and Rebuild

(**GMT** Timing QI Fanatic Monday 1430 QI Normal Diff 5-2)

This is last Collection before going full QA. If you are unsure you have enough stuff or just want more spare then by all means, take as many extra collections as you like before you go full QA.

At collection as euphoria sorted, collection can be simple or you might go with an approach to maximise supplies being the last collection.

Simple approach is collect everything.

Maximalist approach (my preference and recommendation) is to start by collecting all housing. Then onto the supply side.

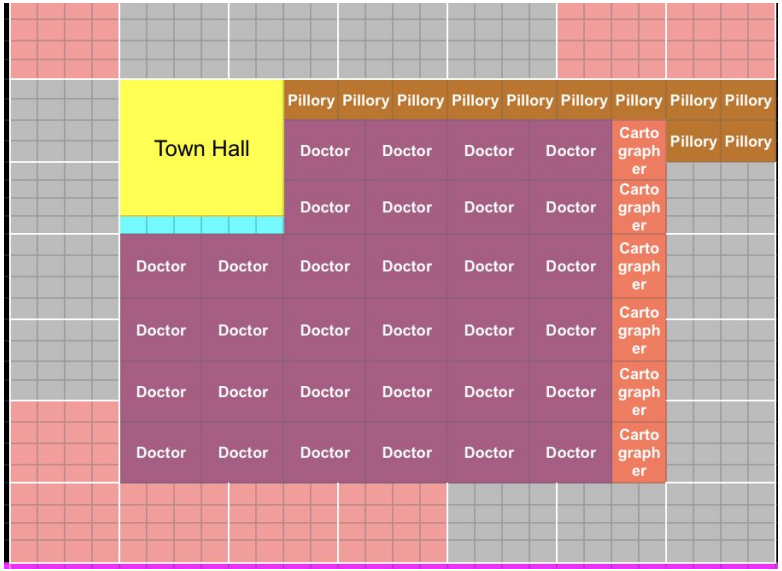

Collect 1 Bakery, Sell the Bakery and add Brewery. Repeat this sequence until all Bakeries have been collect. You will be able to remove some housing as you go (but keep at least 3 Clapboards) to add even more breweries. Then collect your breweries

If you need use more pillory because of layout you may need an extra collection or keep Clapboards to get alloy for them.

The pic shows 5 Clapboards as I want a bit extra Alloy for decorations at end as plan is tight on Alloy and I wanted a bit more just for Decorations to fill that blue strip.

11th Collection and Rebuild

(**GMT** Timing QI Fanatic Tuesday 0045 QI Normal Diff 6-1)

Troop buildings are finished so train troops. After training troops required (I allow for 400 cannon and 100 Guard which is generally more than I need, but you do you.) sell the troop buildings and clapboards and add 4 doctors and 2 Pillory.

Note that little blue strip under Town Hall I normally put some Gargoyles (blue fighter here) for a little extra boost. If you already have great boosts then you could swap out the 2 doctors below the strip and replace with 6 Pillory in the space.

If you need more boost then just swap out some Culture for Decorations of your choice.

Now you will stay this way until the end of QI.

If you find yourself in last couple of hours of QI, with a full action bank but lower than desired boosts, sell up your Culture buildings and put down as many decorations as you can.

Estimate Output and Other Useless Info

My estimate is a return of 11,500 points and 2,020 Shards. (Assuming RNG God returns Shards at 150 per 100 successful actions).

To get there it also assumes collection occurs on 10 hour mark with 15 minutes taken during collection and rebuild build time until Settlement is finished. After that it is just assumed you fight enough so your QA bar never fills to limit causing QA production to pause.

What am I rocking to get to this points total?

Main city QA boosts of 3,200 per hour.

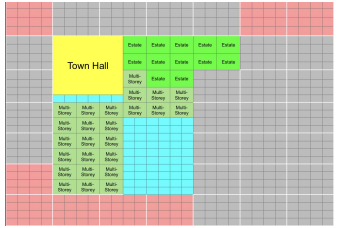

My fighting stats are 865/765 and I like to add +105/+105 (7 Gargoyles) at last build point. Fighting wise, I just auto fight with 7 Artillery and 1 Heavy infantry. Not always the best but gets me through QI.

Hope it helps.

Goodies in the Pantry

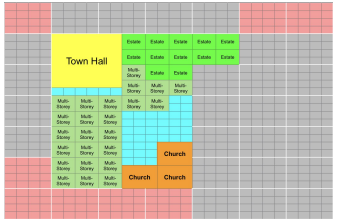

After Collection & Rebuild	Coin	Supplies	Alloy
0	2,000	345,000	0
1	2,069,700	395,000	534
2	1,190,600	129,500	243
3	2,080,100	695,500	270
4	3,042,350	401,500	68
5	5,344,900	203,500	247
6	8,146,250	205,500	532
7	10,595,450	455,500	5,259
8	12,122,700	1,440,815	11,364
9	15,562,300	4,850,815	17,484
10	9,173,800	882,415	2,104
11	9,781,800	385,165	1,494

Plenty of Shards but no Goods or Boosts

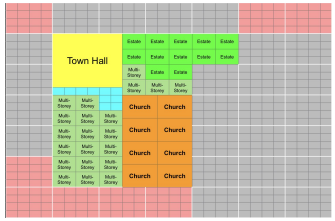

At start of QI buy 4 Shard expansions.

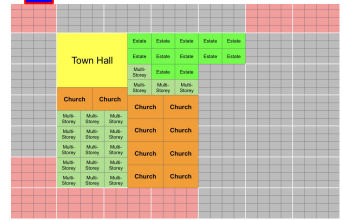

Collect Town Hall and then build 3 Churches. Sell 1 Multi-Storey - bonus moves to 0.6

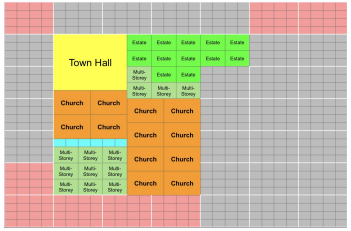

Sell 3 Multi-Storey and build 5 Churches - bonus moves to 0.8

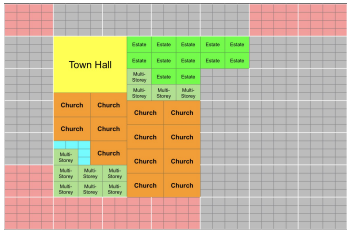

Sell 2 Multi-Storey and build 2 Churches - bonus moves to 1.0

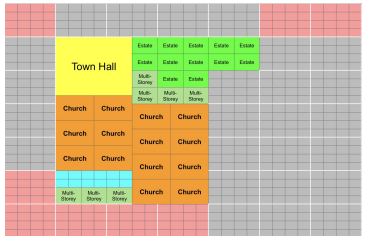

Sell 6 Multi-Storey and build 2 Churches - bonus moves to 1.1

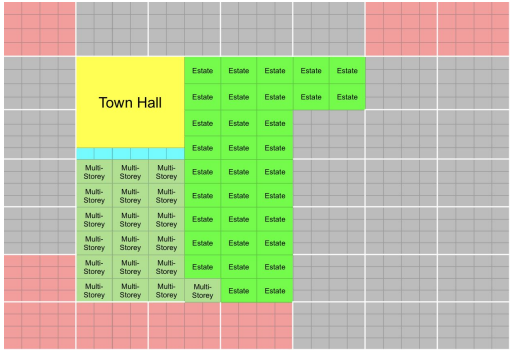

Sell 2 Multi-Storey and build 1 Church - bonus moves to 1.2

Sell 4 Multi-Storey and build 1 Churches - bonus moves to 1.5

Collect the rest.
Sell all Churches.
Build 12 more Multi-Storey and 21 Estates.

At end of it all you should have 728k Coun, 125k Supplies and 466 Coin..

Once next collection is ready, follow Collection 2 process (slide 7). End point should see you with exactly 1k Alloy. You might not have the supplies for 5 expansions with no boost but should be able to get 4.
