Thirteenth Collection:

- Collect All.
- Balance: 12.7M Coin, 5.4M Supply, 17766 Alloy

Fourteenth Collection:

- Collect All.
- Sell all Houses and Supply Buildings.
- Build to 30 Doctors, 9 Cartographers, 48 Gargoyles, 2 Nautical Statues

The mix listed of Doctors/Cartographers/Gargoyles/Nautical Statues is based on what I expect to have for Supplies and Alloy and how much single-color boost I need. The precise mix I settle on may be slightly different in the end ; and evolve over time as I get new support from my main city.

If I needed no boost I could convert on collection 13 instead of 14 to 2 Pillories, 38 Doctors, and 4 Cartographers, geometry permitting (that's a very high % of 3x3s - would need to be quite careful about picking expansions; probably need additional impediment removals as such. The amount of 1x1s I currently plan to use makes it easier to deal with any geometry while needing boost). Would probably need additional supply boost from main city to be able to handle additional Pillories or Cartographers in order to be more geometry tolerant.
